## Revised appendices with necessary additions and alterations of District Gazetteer of Bareilly District

### CHAPTER I

#### CANALS

Bareilly District lies within two Irrigation divisions (those of Bareilly and Shahjahanpur) and is irrigated by two canal systems, the Rohilkhand and Sarda. The portion of Shahjahanpur Division which lies within the district contains channels of the Sarda system only while the Bareilly Division contains channels of both systems. The Sarda Canal was opened in December, 1928.

No changes of importance have occurred on the old Upper Bahgul, Dhora, Kichha, Paha, Balli, Baror and Kulli Canals, except that the Balli Dam on the west Bahgul Nadi was washed away by floods in 1926, and in its place an earthen bund is constructed annually at the beginning of the *rabi* fasl.

A great development of irrigation has, however, taken place in the Bareilly, Nawabganj and Faridpur Tahsils owing to the construction of the Sarda Canal. A feeder has been taken from the Deoha River at Dunnai, some 10 miles north of Pilibhit, where a barrage has been built, to the East Bahgul Nadi just upstream of Choreli Dam. By this feeder Sarda Canal water has become available for the old Right and Left Choreli and Right and Left Girem Canals; these were formerly entirely dependent upon the precarious supplies of the East Bahgul Nadi. It has also become available for the Kailash and Absara Canals, which used to take off from the nadis of those names. Finally it has enabled the Irrigation Department to open three new systems of canals (the Richha, Faridpur and Shahjahanpur Branches). The Richha Branch comprises 6 miles of main line, the old Right Choreli Canal (cut short by two miles), and the Bareilly, Bhojipura, Shahi and Dalpatpur Distributary systems: it takes off the East Bahgul Nadi just above Choreli Dam. The Faridpur Branch takes off this nadi above Girem dam. In addition to the above, the Left Girem Canal was

greatly enlarged and extended, and is now known as the Left Girem Distributary system.

No large works were necessitated by the construction of all these new channels. Inspection houses have been built at Basenga, Bhojipura, Raipura, Rithaura, Katariya, and Bhuta. The Sarda Canal workshop has been closed down.

The total lengths of all Government channels in Bareilly District are as follows :

- (1) Old Rohilkhand Canals—205 miles of irrigating channels and escapes.
- (2) Old channels now fed with Sarda Canal water, comprising a portion of the Kailash Distributary system, and the whole of the Right and Left Choreli and Right Girem Distributary systems—72 miles of irrigating channels and escapes.
- (3) New Sarda channels, i.e. the Richha Branch main line, the Bareilly, Bhojipura, Shahi and Dalpatpur Distributary systems, the Faridpur Branch and Left Girem Distributary systems, the Shahjahanpur Branch and the extension of the Absara Distributary system—373 miles of irrigating channels and escapes and 67 miles of drains.

In all there are 650 miles of irrigating channels and escapes and 67 miles of drains in Bareilly District. The channels in (1) above are now classified as "Unproductive" and those in (2) and (3) as "Productive" irrigation works.

During the past three years the actual areas irrigated have been :

					Old Rohilkhand Canals	Sarda Channels
1930-31	..	..	..	..	35,689	103,530
1931-32	..	..	..	..	28,642	91,416
1932-33	..	..	..	..	30,533	81,773

Four of the five tahsils in the district (Bareilly, Faridpur, Baheri and Nawabganj) are now well irrigated. Aonla Tahsil remains unirrigated. In 1932 a system of collection of canal dues by

special canal amins was introduced: this system has been a great improvement on the old method by which zamindars were made responsible for payment of the dues.

The great development in the sugarcane area in late years has been accompanied by falls in the rice and *rabi* areas.

## CHAPTER II

### BANKS

#### (1) *Co-operative movement*

There are now 75 agricultural and 5 non-agricultural societies in the district all of which are affiliated to the District Co-operative Bank, Limited, Bareilly. This is an increase of only 2 societies on the figures of 1924. Some of these societies are working entirely with their own capital. In addition, there are now 32 better living societies in the district. An important development in the last decade has been the formation of the Atterchendi Central Co-operative Irrigation Society to which are affiliated five primary irrigation societies. The function of these societies is to utilize the water of the Piareya and Aril rivers for irrigation purposes by constructing bunds across them. This work should affect about 80 villages in the neighbourhood of Atterchendi if the work progresses satisfactorily. Two other societies—the Rohilkhand & Kamaon Railway Loco. and Carriage Officials Co-operative Society with its headquarters at Izatnagar, a membership of 507 and a working capital of Rs.29,245 and the United Provinces Irrigation Branch Ministerial Establishment Co-operative Society with its headquarters at Bareilly, a membership of 80 and a working capital of Rs.558-4 advance loans to their members on easy rates of interest.

The working capital of the bank is Rs. 81,485-14-9, the share capital is Rs.30,552 while the reserve and other fund amount to Rs.13,392-12. The financial position of the bank is sound.

#### (2) *Other Banks*

The Allahabad Bank, Limited and the Imperial Bank of India continue to have branches at Bareilly. The Imperial Bank has not yet taken over the cash department of the treasury. In 1933 it shifted its buildings to a site opposite the collectorate.

---

**INDIAN WOOD PRODUCTS COMPANY, LIMITED.**

This Company commenced operations in 1922 and at the time of the issue of the last Gazette was just beginning to pay its way. Since that time its sales have developed to a marked extent and its manufactures are now solidly fixed in markets all over India. The Company is in a very sound financial position and employs about 350 workers in the Bareilly Factory in addition to about a 1,000 men who are employed in the forests during six months of the year. The Managing Agents are Gillanders, Arbuthnot and Company of Calcutta.

**SUGAR FACTORIES**

As has been the case throughout India there has been a very marked growth in the manufacture of Sugar in this District during the last 2 years and three new sugar factories have been made. The largest of these is the H. R. Factory which occupies the site of the old Sarda Canal workshop near the city station Bareilly. This is controlled by the Raja Sahib of Pilibhit, Rai Bahadur Seth Her Pershad of Pilibhit and Lala Ram Narain and Ram Bharosey Lal of Bareilly. The purchase price of the building was approximately Rs.85,000 and the capital with which the factory has been started is Rs 20,00,000. In December, 1932. the factory was opened by His Excellency Sir Malcolm Hailey, the Governor of the United Provinces.

At Baheri 2 new factories have been built. Of these the Khandke Sugar Works (proprietors Messrs. Khandke and Company, Limited) has a comparatively small capital and started work in April, 1933, while the Kesar Sugar Works (proprietors Messrs. Kilachand Dev Chand and Company, Limited, of Bombay) is a large undertaking and is expected to start work in November, 1933.

These factories are largely supplied with cane from the district itself but Rohilkhand as a whole is being tapped. The Bareilly factory has sidings on both the East India and Rohilkhand & Kumaon Railways while the Baheri factories have sidings on the Rohilkhand & Kumaon Railway only.

---

### WESTERN INDIA MATCH COMPANY, LIMITED

This company built a Match Factory at Clutterbuckganj and started manufacturing in February, 1930. At present the factory employs approximately 750 persons of whom eight are Europeans. The annual turnover is about 35,000 cases of 50 gross each; the price of these cases is about Rs.17,00,000. The proprietors are the Western India Match Company, Limited, and the approximate capital involved is Rs.26,00,000.

### MARKETS

The markets in the district have increased from 35 to 158 since the last revision of the Gazette. A list of these markets by tahsils and parganas is given in the Appendix.

---

## CHAPTER II

### BRIDGES

In the last decade the following work has been done on the bridges in the Bareilly District :

A Reinforced Concrete Bridge over the Baigul river at Fatehganj East was constructed at a cost of Rs.2,97,349. The bridge 13 miles and 4 furlongs from Bareilly on the Muttra Road was reconstructed at a cost of Rs.11,189; the bridge over the Nakatia river on the Lucknow Road just outside cantonments was widened at a cost of Rs.20,451. Finally a bridge 34 miles from Bareilly on the Ranikhet Road was constructed at a cost of Rs.8,356.

### CENSUS

The population of the district as given in the 1931 Census is 10,72,379 as against 10,13,875 in 1921. This is an increase of approximately 6 per cent. The increase is due chiefly to the fact that the district was not attacked by any serious epidemic disease during the decade. It is worth noting that the population even now is less than it was in 1911. The influenza epidemic of 1918 was largely responsible for reducing the population to the comparatively low figure of 1921.

---

## CHAPTER IV

### CHANGES IN THE NUMBER AND JURISDICTION OF CIVIL COURTS.

During the last ten years the tahsil of Aonla was removed from the jurisdiction of the Munsif City and attached to that of Munsif

Hawali, Bareilly. From 7th of August, 1924, a separate Small Causes Court was established in Bareilly. Pilibhit District was detached from the jurisdiction of the Kumaun Judgeship in July, 1930, and is now attached to the Judgeship of Bareilly. This step was merely a reversion to the practice which obtained up till 1915.

#### CHAPTER IV

##### POLICE FORCE

The New Kotwali was completed in 1927 and was occupied in November, 1928. It is now one of the best in the Province. In 1928, there was a re-distribution of villages in the Bhojipura, Hafizgunj and Baradari Circles.

In 1927 the district allocation of the Mounted Police was reduced by 1 head constable, M. P. and 1 constable, M. P. and further again in 1932 by 10 constables M. P. In 1926 the strength of the Armed Police was increased by 5 constables to provide for office orderlies. Consequent upon the amalgamation of the Government Railway Police and the District Police in 1932, one sergeant, 5 sub-inspectors, 2 head constables, 3 naiks and 50 constables of the Civil Police were added to the district allocation. A further reduction in the strength of village chaukidars was made by 11 in 1928, 2 in 1929 and 97 in 1932 as a measure of economy; the present strength is 871.

The revised statement of the district allocation of the Provincial Police is given in the Appendix.

##### EXCISE

In the case of charas, bhang and opium shops the surcharge system is still in force. The Licensing Board which was constituted in 1922 still controls the shops of the city; the rural shops continue to be under the direct control of the Collector assisted by the District Advisory Committee. For liquor shops the contract system has been revived and the shops are auctioned annually. There are 3 circle inspectors and one warehouse Inspector in the district.

##### INCOME-TAX

Since the last revision of the Gazette two new additional officers have been added to the income-tax staff for the circle

which comprises the Bareilly, Badaun, Naini Tal and Almora Districts.

### POST OFFICES

Since 1922 five new sub-post offices have been opened in Bareilly City—viz., Junction Station, Bhur. Clutterbuckganj, Gulab Nagar and Radhey Shiam Press; one new branch office (Chuck) has also been opened in the city. In addition four new rural branch offices have been opened at Dhunka, Dhanaura, Atanga, Chandpur and Hafizganj. A list of post offices by tahsils is given in the Appendix.

### MUNICIPALITIES

In the last decade one woman member nominated by Government and two Muslims (from the wards 1 and 8) have been added to the municipal board; otherwise the constitution of this board has remained unchanged. Since 1926 the municipality has installed electric light in most parts of the city and it is hoped that the whole city will soon be lighted by electricity. The developments made by the board in compulsory primary education will appear from the details to be found in the Appendix.

### DISTRICT BOARD

In 1932 the number of members nominated by Government was increased by one through the nomination of a woman member. No other changes in the constitution of the board have taken place during the last decade. In 1928 a tax on circumstances and property was imposed. The progress in education and a list of schools maintained or aided by the district board will be found in a table in the Appendix.

### TOWN AREAS

Sirauli ceased to be a town area in 1930-31; the management and realizations are in the hands of the Tahsildar Aonla; the number of town areas is now eight. Each has but one nominated member the others being all elected. The Tahsildar is the Town Magistrate of each town area in his jurisdiction. A list of town areas with the number of seats and voters is given in the table in the Appendix.

---

**PANCHAYATS**

The number of panchayats in the district has decreased from 127 to 88, and it appears that this number may be still further reduced in the near future. A list of the panchayats by tahsils is given in the Appendix.

**BAREILLY COLLEGE**

During the last decade there has been a noticeable increase in the number both of the students and of the staff at the College. In 1923-24 there were 129 students and 9 members of the staff while in 1932-33 there were 655 students and 28 members of the staff. The increase has been chiefly noticeable since the appointment of Mr. William Owens as Principal in 1928 and has been maintained during the probationary Principalship of Mr. A. C. Dutt. Since 1929 new classes have been started in Intermediate (Urdu and Hindi), M. A. and M. Sc. (Mathematics) and LL.B., B.A. (Urdu and Hindi) and M. A. (English and Economics). In 1925-26 the new classes of Intermediate Commercial and B. Sc. were started. In 1923-24 no donations were received but from 1924 to 1933 Rs.94,535 were received in donations and Rs.34,000 were received from Government. Three new buildings have been erected during the last decade. In 1927 a Science block built by his widow in memory of Brij Mohan Lal was completed; Rs.22,000 was received from Government for the equipment of the block. In 1930-31 the new building of the College was completed at a total cost of Rs.42,408 and in 1933 a new games pavilion was erected at a cost of Rs.3,300. The College is still predominantly recruited from Bareilly City and needs support from the rest of the district and Rohilkhand as a whole if it is to fulfil its proper function in the Division.

During the decade Mr. A. C. Dutt has been the Principal of the College either acting or on probation for 5 years while Mr. William Owens was Principal for 3 years. Mr. Dutt has now been confirmed in his office.

**DISPENSARIES.**

There are nine dispensaries working in the district. In 1931 the Canal Dispensary at Nawabganj was abolished. No other

changes have taken place within the last decade. A list of dispensaries is given in the Appendix.

#### MATERNITY AND CHILD WELFARE SOCIETY

This Institute which was founded by Mrs. Stubbs in 1922 has expanded steadily during the last decade. The most noticeable changes since 1924 have been the opening of two branch centres in the city and three branches at tahsil headquarters. The city branches are situated at Shahamatganj and Malukpur. The main centre is at the Town Hall. This centre, which is the property of the Society, was opened in March, 1925, by Sir William Marris, the then Governor of the United Provinces. The city has thus been divided up into three circles and is now thoroughly covered. Tahsil branches have recently been started at Baheri, Faridpur and Aonla. It is hoped that a branch will shortly be started at Nawabganj; if this can be done all the tahsils will be provided for.

Mrs. Stubbs left Bareilly in 1931 but remains the Life President of the Society. Mrs. Pedley, wife of the Collector, is the President, and the Medical Officer of Health remains Secretary. The Civil Surgeon, the Chairmen of the Municipal and the District Boards and five *raises* make up the governing body. The staff of the Society consists at the moment of one fully qualified lady doctor, three health visitors and nine midwives. Each of the city branches is in charge of a health visitor and each of the tahsil branch is in charge of a midwife. There are now 80 *daïs* registered for training at the centre. On completing their training these *daïs* will be given small midwifery boxes and will conduct labour cases independently. In addition to these there have usually been at least two probationery midwives under training at the centre every year during the last ten years, and for some years Government gave a grant which enabled four other probationers to be trained; this grant has now been stopped.

In 1932, 20,268 visits were paid by members of the staff, 2,115 labour cases were attended by the Society, 5,287 infants and 2,179 mothers were treated. Grants-in-aid are received from the Red Cross while the municipal and district boards also give grants

for the branches within their respective areas. In addition, the endowment grant brings in about Rs.2,000 a year and donations are received from various *raises*.

#### IMPERIAL VETERINARY SERUM INSTITUTE, IZATNAGAR

This Institute was founded some time ago but its main development has taken place in the last decade. Before 1924 Government had already bought the area occupied by the Institute (about 750 acres at Izatnagar, situated between the Bareilly-Naini Tal and Bareilly-Pilibhit roads) but the only permanent buildings that had been erected were residential quarters for the staff. Besides these quarters the buildings now comprise a permanently built laboratory and offices, store and packing houses, preparation block and grain godown. In addition hay sheds and cattle sheds have been erected.

The purpose of the Institute is to undertake the routine work of serum manufactures. Five serums are now produced, bottled and distributed at Izatnagar; these serums are anti-rinderpest serum, anti-haemorrhagic septicaemia serum, anti-blackquarter serum, anti-anthrax serum and blackquarter aggressin.

The Institute is in charge of a Deputy Director of Agriculture. The two main branches are the Veterinary Department and the Serum Department. The former is under a Veterinary Deputy Superintendent and the work of the department consists of the purchase, injecting and bleeding of healthy cattle. The Serum Department then makes the serum from the blood.

There is a farm of 625 acres in the Institute. Of this area about 500 acres are under crops and about 125 acres are devoted to grazing.

*District Gazetteer of the Bijnor District with necessary  
additions and alterations to the text and revised*

1—CANALS

*Nagina Canal*

The weir over the Kho river was out-flanked by the heavy floods of 1924. A new flank has been constructed together with a 200 feet long Bell Band to protect the weir.

The old canal inspection house at Kot Qadir has been replaced by a new building.

*Ramganga Canal*

A pumping scheme for the Ramganga was started at Bhagwanpur Raini in 1929 and was completed in 1930. The scheme comprises a 1,500 feet weir thrown across the river with an electrically operated pumping station. A 3-mile long feeder channel with a similar pumping station at its end extends the area over which water is carried. There are about 100 miles of irrigating channels commanding about 100,000 acres between the East Indian Railway and the Ban Nadi—most of this area is, however, in Moradabad District.

The following is the statement of area cultivated and revenue collected on Bijnor canals during the last six years :

	1926	1927	1928	1929	1930	1931
Acres ..	29,654	28,575	28,977	23,420	24,970	22,858
Rupees ..	81,816	66,067	72,459	60,678	64,210	60,748

2—CATTLE

A cattle census was taken during 1337 Fasli (1929-30). The result showed a marked decline in the number of sheep, horses and ponies. The decline in horses and ponies is probably due to the increasing popularity of the motor lorry. The cause of the decline in sheep is not clear but it is noticeable that the decrease is counter balanced by an equal increase in the number of goats.

Contrary to the popular belief that the reduction of pasture facilities has reduced the number of cattle, the figures for cows, bullocks and bulls are almost the same as in the previous census of 1920. Far from there bring a decline, the number of she-buffaloes and young stock shows a definite increase.

The number of carts increased from 45,263 to 48,113.

A cattle breeding scheme was introduced into the district four years ago. Approved bulls were lent by Government to private individuals for the purpose of improving the stock. The scheme has not made much headway and there still is considerable opposition to these bulls in many places.

A new Veterinary Dispensary has been opened at Chandpur and the number of Veterinary Assistants has increased from 4 to 5.

### 3—HEALTH AND DISEASE

The decade has been fairly free from widespread epidemics, except in 1928 and 1931 when plague claimed about 4,000 and 2,000 victims and in 1932 when over a thousand deaths were due to small-pox alone. The worst sufferer was Chandpur and the area round it, which was never completely free from plague.

Plague inoculation is still unpopular and isolation of infected persons is difficult owing to social conditions.

The number of small-pox vaccinations fell from 27,917 in the previous decade to 23,398, probably not because of growing unpopularity but because of lesser effort.

The miscellaneous diseases which are recorded under the head fever accounted for about 20,000 deaths a year, not a large mortality in a population of over 8 lakhs. The district continues to deserve its reputation for a salubrious climate.

### 4—SANITATION

*Bijnor*—Two tanks Dewanwala and Tojonwali which were in the abadi have been acquired by the Municipal Board and are being filled up.

Since 1929 the Municipal Board employ a trained Sanitary Inspector.

*Nagina*—Three tanks which were within the abadi have been filled up and the effect on the death rate is already visible.

*Chandpur*—The Municipal Board spent about Rs.66,000 during the decade on maintenance of drains and roads but the existence of the large and badly drained Salara tank near the abadi renders any real improvement in sanitation in this municipality impossible without an outlay which is beyond the resources of the Board.

#### RURAL SANITATION

The problem of rural sanitation has been left untouched. There being no health scheme in the district, there is no agency to deal with it systematically.

#### 5—CULTIVATION AND IRRIGATION

During the decade the total area of the district decreased from 1,148,374 to 1,138,700 acres. The decrease is due to (1) the transfer of villages Nabigarh-Amangarh and Rani Nagal of Nagina Tahsil and Amsot and Mohanwali of Najibabad Tahsil to the Forest Department, (2) to the action of the Ganges whose deep stream is the boundary line between Bijnor and the neighbouring districts and (3) to the resurvey and map correction of recent settlement operations.

The irrigated area increased from 38,975 acres to 42,494 acres, owing mainly to the opening of the new Ramganga Canal.

A feature of the concluding years of the decade has been the growth of substantial sugarcane farms on improved lines, notable among which is a 1,000 acre farm at Dharamnagri started by Raja Jwala Prasad, retired Chief Engineer. Khadar land has been fenced and reclaimed and now supplies cane to a factory at Dharamnagri started jointly by Government and the Raja Sahib.

The distribution of the area under the various crops shows no change.

### 6—AGRICULTURAL HISTORY

The district fortunately escaped famine during the decade but there was extensive crop failure in 1335 and 1336 Fasli owing to prolonged drought in the critical month of September. Relief was given in revenue to the extent of Rs.23,235, being remitted and Rs.5,770 being suspended.

Locusts appeared in the district in huge swarms in February 1930 and affected 777 villages. Extensive operations were immediately undertaken to kill the pest and were successful. The total cost to Government of these operations was Rs.40,944-14-7. The area affected was mostly a sandy belt of 10 to 15 miles along the left bank of the Ganges.

### 7—PRECARIOUS TRACTS IN MANDAWAR

This tract consists of 11 khadar villages in Circle I, 6 in Circle II, 1 in Circle III, 11 in Circle IV and 22 in Circle V. The cultivated area decreased in all the villages, but the rental demand in the villages of Circles I, II and III showed an increase on account of the ejection of old tenants and the letting of the land to new tenants at enhanced rates.

The rental demand in the villages of Circles IV and V, on the other hand, decreased considerably owing to the fall in prices, most of the tenures in these circles being on grain rents.

Paradoxical as it may seem, these precarious tracts withstood the slump in agricultural prices better than other more prosperous villages of the pargana. The explanation is the prevalence of *batai* tenure.

### 8—MARKET AND TRADE

*Bijnor*.—The markets at Chandpur and Haldaur have benefited owing to the new railway.

Electric engines for grinding flour have become popular in the tahsil.

*Dhampur*.—Dhampur is still the leading centre of the sugar trade in the district.

A new factory is a glass factory started at Dhampur by Sahu Chandi Prasad. The factory used to provide work for

more than one hundred persons a day but recent competition with Japanese phials has hit it hard and it is not working now.

In addition to this glass factory there are at Dhampur a winnowing machine run by Sahu Chandi Prasad, a sugar factory run by Sahu Ram Kumar and many small mills for grinding corn.

There are a number of small oil engines for grinding corn and small factories for manufacturing sugar in Seohara.

*Najibabad*—Trade in woollen blankets in Najibabad town has increased. A co-operative society runs a wool ginning factory in Najibabad. There is also a Government Weaving School.

*Nagina*—The sale of cotton thread and manufacture of sugar have expanded. Ebony work which is a speciality is declining. The trade in small phials has also suffered owing to foreign competition. There is a flourishing printing industry at Manjhara Sakru and there is some export of printed goods but otherwise the tahsil has no trade or industry of importance and the town has suffered both in trade and traffic on account of the new railway line from Chandpur Siu to Moazzampur Narain.

The Co-operative Union, Limited, have recently started a small glass factory near Nagina railway station for manufacturing bottles and chimneys. The factory is not working at present.

#### 9—ROADS

A—The only road under the Public Works Department in Bijnor District is the Bijnor-Muzaffarnagar Road having the first 6 miles 3 furlongs and 140 feet metalled and the next 2 miles and 176 feet unmetalled (fascine) roadway, the latter forming the approach to the Raoli ferry.

B—The following new roads were constructed during the decade :

1. Lambert Road, from Bijnor-Muzaffarnagar Provincial Road to Dharamnagri Farm, Rs.7,348-15 cost, 1 mile 2 furlong.

2. Nagina-Idgah Road, Rs.1,000, 2 furlong 580 feet.

3. Nagina-Ramlila Road, Rs.4,500, 5 furlong, 125 feet.

The present mileage of metalled and unmetalled roads is as under :

1. Metalled roads, 66 miles, 2 furlong, 399 feet.

2. Unmetalled roads, 512 miles, 1 furlong, 615 feet.

A scheme for metalling the Bijnor-ganj is afoot.

A government project for a metalled road from Amroha to Kotwali Village on the Bijnor-Nagina Road has been approved, but the road is not likely to be constructed in the near future for want of funds.

#### 10—RAILWAYS

The district headquarters are now on the railway line. An extension of the line from Chandpur Siau via Bijnor to Moazzampur Narain, a station on the main line of the East Indian Railway was completed and opened for traffic on January 5, 1930.

#### 11—CENSUS

The census of 1931 showed an increase of 12·85 per cent. or 95,101 persons in the population, which is now 835,469.

Immigration rose from 2·09 per cent. in 1921 to 3·01 per cent. in 1931.

Emigration has declined owing to the restriction of employment elsewhere.

The density of population varies from 352 per square mile in Nagina Tahsil to 445 per square mile in Najibabad Tahsil, 454 per square mile in Bijnor Tahsil and 608 per square mile in Dhampur Tahsil, the district average being 466 per square mile against 414 in 1921.

The distribution of population among the various main religious per 10,000 is as below :

			1921	1931
Hindus	..	..	6,173	5,828
Muslims	..	..	3,585	3,759
Christians	..	..	22	31
Aryas..	..	..	211	334
Sikhs..	..	..	2	36

---

The marked increase among Sikhs is due to the recording of Ramaiyas under that religion.

### 12—POPULATION OF THANAS

At present there are 17 police stations in the district. The population has increased in nearly all the thanas specially in Najibabad and Amhera where the increase is 28 per cent. and 27 per cent. respectively.

### 13—LEADING LAND OWNERS

#### *Bijnor*

*Haldaur Estate*—The estate of Rani Bibi Kunwar, which is the biggest in tahsil Bijnor is now managed by Thakur Balwant Singh Gahlot, B.A., LL.B., M.L.C., Chairman of the District Board.

The estate of Kunwar Ram Singh and his two minor sons is managed by the Court of Wards.

The estate of the late Chaudhri Budh Singh of Siau is now in the possession of his son Chaudhri Naubahar Singh. The estate is indebted.

Raja Jwala Prasad, retired Chief Engineer, now resides at his village Dharamnagri where he runs a large farm on modern lines.

#### *Dhampur*

*Sherkot Estate*—The daughter of the late Rai Bahadur Chaudhri Ranjit Singh and the only child of the widow Rani Phul Kunwari has been married.

*Sheohara Estate*—The property of the late Rai Bahadur Chaudhri Param Singh is now in the possession of his son Chaudhri Hari Raj Singh. The estate is solvent.

*Tajpur Estate*—Raja Francis Xavier Shiam Rikh is leading a retired life at Bangalore and the estate is managed by Chaudhri Gopi Nath Singh, his sister's son. It has been divided among his sons and nephews and considerable portions have been sold owing to debts.

Kunwar Vishunath Rikh is the local head of the family. The property of his brother Kunwar Juswant Rikh and of Kunwarani Kuntla Rikh is managed by the Court of Wards.

The estate of Raja Jagat Singh is in the possession of Rani M. L. Hira Dei, the widow of Kunwar Randhir Singh. Kunwar Jasjit Singh, son of Kunwar Dig Bije Singh, is still a minor under the Court of Wards.

The estate of Khan Bahadur Chaudhri Amir Hasan Khan of Sahespur is in good condition. His younger brother Chaudhri Samiullah Khan is now an Honorary Magistrate.

#### *Najibabad*

*Sahanpur Estate*—It is managed by Raja Bharat Sinha Rai, Rai Bahadur, O.B.E., and his son Kunwar Shamsheer Jung, who is an Honorary Magistrate with second class powers.

The property of Chaudhri Shibba Singh of Jalpur is now with his grand-daughter Musammat Om Wati and is managed by her husband Chaudhri Tara Singh.

The Muftis of Kiratpur with a few exceptions are heavily indebted.

#### *Nagina*

The Raja of Kashipur is the most important zamindar. The property is managed by the Court of Wards.

The Behar Estate has been released and is managed by Thakur Har Prasad Singh who is also an Honorary Magistrate.

Saiyid Ale Imran is insane and his property is under the Court of Wards.

#### 14—DISTRICT STAFF

The strength of the revenue staff is the same as 10 years ago but now there is a resident Sessions and Subordinate Judge at Bijnor.

15—DISTRIBUTION OF POLICE IN THE BIJNOR DISTRICT

The sanctioned allocation of the district, as it stands, is as follows :

Force	Inspectors	Sub-Inspectors	Head Constables	Naiks	Constables
Armed Police ..	..	1	10	12	99
Civil „ ..	3	35	40	15	397
Total ..	3	36	50	27	496

The sanctioned number of village chaukidars for the district as the result of the retrenchment of 1932 is 616.

16—EXCISE

At the close of 1921--22 the contract system was abandoned in favour of what is called the graduated surcharge system. Under this system licences were not auctioned but were given on selection and licence fees were based on a graduated scale varying with the sales. The system has caused considerable loss of revenue and the auction system is now being reintroduced. The illicit consumption of all excisable articles has gone down considerably as the following figures will show :

	1921-22	1931-32
Country spirit, L. P. gallons .. ..	7,673	4,018
Opium, seers .. ..	455	214
Charas „ .. ..	829	163
Bhang „ .. ..	1,786	372

Excise crime is small in this district. There is some illicit distillation mainly by Jats, Dheemars, Chamars and Mehtars during the sugarcane season, but generally the district is free from this form of crime.

There is no poppy cultivation.

From 1924 the Excise Inspectors' circles have been reduced from 3 to 2 and their present jurisdiction is as below :

Circle I, Bijnor .. ..	Bijnor and Najibabad Tahsils with the two bonded ware-houses and the distillery area of Garhwal District,
Circle II, Nagina .. ..	Nagina and Dhampur Tahsils and the bonded ware-house at Dhampur.

## 17—STAMPS

Receipts under this head continue to rise, the highest figures reached being in 1929 when Rs.4,46,873 were realized. Roster, record and settlement operations are probably responsible for the rise.

## 18—INCOME-TAX

The district is now in charge of a separate Income-tax Officer, who is also an additional Income-tax Officer of Moradabad District, with headquarters at Moradabad.

## 19—MUNICIPALITIES

There continue to be five municipalities in the district, namely Bijnor, Chandpur, Najibabad, Dhampur and Nagina. All have an elected Chairman.

The tax levied on Circumstances and Property was very unpopular and was replaced by octroi in the beginning of the decade.

All the municipal towns have been electrified.

Elections are keenly contested on personal lines and always give a rise to a host of complaints and counter complaint.

Some interest is now being taken in primary education but the condition of roads is unsatisfactory everywhere.

Not one of the boards is financially prosperous.

## 20—EDUCATION

The last decade has seen a considerable advance in education. The number of Vernacular Middle Schools has increased by two and English classes have been added in four schools. In two of the schools agricultural and rural knowledge classes have been opened.

The following statement shows increase in the different kinds of schools.

				Number of 1921	Institutions 1931
1.	Middle Schools	..	..	11	13
2.	Ordinary Primary Schools	..	..	195	205
3.	Islamia Schools	..	..	17	17
4.	Maktabas	..	..	23	47

---

				Number of 1921	Institutions 1931
5. Ordinary Aided	..	..	..	3	58
6. Depressed	..	..	..	6	7
7. Girls' Schools	..	..	..	5	24
8. Aided Girls' Schools	..	..	..	11	15

Compulsory education was started in eight village areas in 1928.

The number of literate persons rose from 14,448 in 1921 to 21,625 in 1931.

A comparative statement of Hindu and Muslim scholars is given below :

				1921	1931
Hindus	..	..	..	8,174	12,261
Muslims	..	..	..	5,786	9,019

A feature of the schools in the rural area is the wastage in the earlier classes.

The Gurukul of Kangri was greatly damaged by the floods of 1924 and has since been shifted to Jwalapur in district Saharanpur.

## 21—DISPENSARIES

Two new regular dispensaries were opened in the district during the decade, namely, the Muir Dispensary at Afzalgarh and the I'jaz Dispensary at Mandawar. Besides these, three subsidised dispensaries have been opened at Barhapura, Paijanya and Nurpur. Aid is given to three Vaidis and three Hakims by the District Board for free treatment and distribution of medicines at Maheshri, Athain Sheikh, Sarakthal Sani, Habibwala, Mukarpuri and Bishanpur villages.

## 22—TRAVELLING DISPENSARIES

No such dispensary is now maintained by the district but the travelling dispensaries of the Public Health Department are called in during epidemics.

## 23—CATTLE POUNDS

The number of cattle pounds increased from 36 to 54 during the decade. The income which went up to Rs.30,706 in 1929-30

has again been reduced greatly in the last two years on account of the decrease in the price of cattle sold and probably also on account of imperfect supervision.

#### 24—STALLIONS

One stallion has been maintained at Nagli and another at Serai for some time past. But recently the District Board has resolved to discontinue both these, and to maintain only one at Singha where the stallion was stationed before. A donkey stallion has also been sanctioned by the Board but none is available at present on the rate of subsidy sanctioned by the Board.

#### 25—NEWSPAPERS

Bijnor continues to be remarkable for the large number of insignificant periodicals issued from this district. The decade has seen many ventures and many failures. At present the following papers are published in this district:

1. *The Bijnor District Gazette*: A weekly, giving local news; chiefly devoted to the promotion of co-operation with Government. Circulation about 400.

2. *The Medina*: A bi-weekly paper of anti-Government views with a considerable circulation mostly in the Punjab.

3. *The Mansoor*: A weekly with an insignificant circulation.

4. *The Rishi*: an Arya Samaj weekly with a small circulation.

5. *The Alwakhid*: A Mubammadan weekly with a small circulation.

6. *The Ghuncha*: A children's weekly with a small circulation.

#### 26—THE DISTRICT CO OPERATIVE BANK, LIMITED, BIJNOR

The Bank is affiliated to 142 primary credit societies, the two co-operative unions of Puraini and Mustafabad and to the Shiam Co-operative Stores, Limited, Dhampur, and the Police Co-operative Society, Limited, Bijnor.

*Agricultural improvement*—Twenty-four societies for the consolidation of holdings have been started through the agency

of the Bank. The tube-well started by the Co-operative Society of Ismailpur is one of the most successful in the district. Improved cane, wheat and cotton is successfully sown by the societies affiliated to the Bank and improved implements such as the Meston plough are becoming increasingly popular.

*Industrial development*—This Bank has organized some industrial co-operative societies also, namely, the Glass Works at Nagina, the Leather Works at Dhampur—Jaitra and the Woollen Works at Najibabad. These have been started as an experimental measure and the Leather Works and the Woollen Works are doing moderately well. The Glass Works have failed on account of foreign competition.

*Financial position of the Bank and its affiliated societies*—The improvement in the financial position of the Bank and its affiliated societies is visible from the following figures :

			District Bank	Affiliated societies
			1931-32	1931-32
			Rs.	Rs.
1. Reserve	..	..	22,820	1,15,330
2. Other Funds	..	..	6,085	..
3. Share Capital	..	..	88,800	1,19,102
4. Loan and deposits	..	..	58,389	1,05,460
5. Working capital	..	..	1,76,095	3,39,892
6. Owned capital	..	..	1,17,705	2,34,432
Proportion of the working capital to				
the owned capital			1:1.5	1:1.5

The affairs of the Bank are administered by a Board of 18 Directors with the Collector as *ex officio* Chairman.

The main difficulty with co-operative societies at present is the financial one. The fall in prices has reduced the resources of the borrowers and collections are difficult. The guaranteeing unions are working well.

## 27—PANCHAYATS

In the beginning a large number of panchayats were started but many of these were unsuccessful or useless and as the result of reorganization there are now 72 panchayats in the district, three of which enhanced powers under section 24 of Act III of

1923. As a rule the panchayats are successful in choking off a good deal of petty litigation and their funds are useful for sanitary improvements. It is impossible to say, however, that the movement has taken any real root.

## 28—MISCELLANEOUS

### *Treasury*

Consequent on the introduction of the treasury amalgamation scheme in 1929 the Bijnor treasury was reduced to the status of a Sadar sub-treasury and was amalgamated with the Saharanpur treasury. In 1931 the scheme was abandoned and the treasury has again been raised to its former status of a district treasury under a Deputy Collector.

29. *Settlement*—Record operations were begun in 1925 under the Collector as Record Officer and the district was declared under settlement on the 14th August, 1929. Mr. H. S. Bates, I.C.S., was appointed Settlement Officer and later on Mr. R. S. Symons, I.C.S., was appointed as Assistant Settlement Officer. Before settlement could be completed, however, settlement operations had to be closed on account of the fall in agricultural prices. Assessment proposals were submitted only for tahsil Bijnor but sanction of the Board of Revenue was received only in respect of the alluvial mahals of that tahsil, effect being given from 1340 Fasli to the proposals for reduction but not for increase in land revenue.

In tahsils Nagina and Najibabad the rent rates have not yet been finally sanctioned but the land revenue has been reduced in certain alluvial and non-alluvial mahals from 1340 Fasli. Here again there was no increase of land revenue.

In tahsil Dhampur the work was left incomplete as only map correction and resurvey had been done when settlement operations were closed.

30. *Post offices*—During the period 1921—1931 Phulsanda branch office was closed and Balawali, Kallooganj and Nagina Bazar sub-offices and Asgharipur Gohawar, Gangbaur, Habibwala, Kot Qadir, Mujhira, Shukroo, Padli, Basera, Paoti, Pheona, Sadruddin Nagar, Sahanpur, Sarkara, Shahzadpur and Suawala branch post offices were opened in the Bijnor District.
